Subject My view about the suggested Healthcare Reform

Urgent Return receipt Sign Encrypt

Dear Sir/ Madam,

I **strongly against** the Reform because:

Only the employee would need to contribute the insurance/ saving in your suggestions. How about those small business employer or just owners of a small shop. They may not be rich people and they would also use the public health services....

Why the middle-class citizen (employee) need to pay for those employers in the Health Services??? Too unfair!!!

Your suggestion is actually another kind of tax, but this tax is limited to the employees. There is no different if you increase the tax rate or introduce another kind of tax, but do it in a more fair way.

Regards,
Jason Kwok
