Subject Comment for Medical reform

Urgent     Return receipt     Sign     Encrypt

Dear Director of DH,

Actually, i agree to government to implement for the medical reform, but i feel the percentage charge for each income level group should be the same, i mean pay the same percentage for everyone in hong kong, this is fair for all of us. If i paid for Mandatory Medical fund, i expect i don't need to pay any charge or relatively lower fee for the medical treatment, just like the medical policy in using for the whole Australian society, the name is medicare esc....Thanks
