Congratulation to you for having looked at various overseas experiences for health financing. Do you know there is quite a succinct summary of the good and bad features these experiences in Tim Harford's book "the Undercover Economicst"? I recommend that you read it. Start at page 122 please.

Tim Harford writes for the FT and has worked at the World Bank. The Undercover Economist can be bought at PageOne bookshop in HK at \$102.
