Dear Sir/Madam

How to alleviate the H.K Government burden in Health care? Did the Government encouragement us in smoking, drinking before? Who is the best person to responsible their Health?

Here is my opinion: May be too realistic

- (1) Cultivation a good living habit.
- (2) Health insurance should be proceed to every citizen in Hong Kong. No matter is permant or not! Included the Mainland people.
- (3) When start the Health insurance? To refer the policy in application of CSSA.
- (4) It is difficult for the Government in the Population census.

The health policy in Singapore and Australia are the good examples, but we need plan a special one for H.K citizen. The late we proceed the more expediture and the more we suffer.

Your consideration is much appreciated.  
Law
