My personal views on HKSAR government's 醫療融資
consultation
香港高官們正屎忽鬼!真是沒有社會負任!&br/>I am sorry 醫療融資 will be the copy cat of MPF
again!
I don't mind my future health insurance contribution will place in
government's Treasury.
But I really mind that most of my contribution will go to few rich people's
pocket (private insurance) rather than 100% truly benefit to the public
society!
I prefer 醫療融資 in Hong Kong follows the UK's
national health services system.
忽鬼們, please be more responsible rather than betray /
transfers HK people's benefit to few private enterprises.
Certainly if you do so, the private enterprises will also look after you
too 屎忽鬼.
Perhaps insurance companies will reverse seats after your retirement.
Remember to 過冷河, 屎忽鬼 !
Thank you for your attention.
