Subject Re: Healthcare Reform

Dear Sir/Madam,

I refer to your invitation to comment on the six proposals to finance the Health Care Reform, all of which I am in disagreement with. For the first proposal, it is indeed a tax on all income class. If that is the intent by the Government, you might as well impose poll tax, because it would be much easier to administer, cost effective and equitable. For all other proposals, it is basically ways to make the patients pay with a third party in custody of the patients' health care monies. Have you not learned the lessons in MPF? Public health care is a responsibility and no Government can dispense with it. The only thing you can do is to use your money wisely, and there should be no attempt to compete with the private sector.

Thank you for your kind attention to the matter.

With best regards,
