Dear Sir/Madam,

Whichever method is chosen in the recent consultation papers.

I think that the government may re-consider outsourcing medical providers to Shenzhen Hospitals or Thailand in order to cope

With the increasing need for Hospitalization in HK.

Also, it is essential that the government re-allocates it's resources so as to enjoy scale of efficiency. A lot of the resources in Hospitals today are just not properly allocated and this is why the waiting lines are so long.

Julie Ho
