Subject: Madatory Insurance Scheme

01/04/2008 17:56

Dear Dr. Chow,

Ref: Private hospital boss slams insurance plan

"A mandatory scheme means the young and healthy are forced to subsidize those who are chronically ill and old" [Hong Kong Sanatorium and Hospital deputy medical superintendent Kwong Kwok-hay]

These spoken words from a person of high position in the respected medical profession is really quite shocking. I can only assume Kwong made his remarks whilst intoxicated; or it was let loose through his backside!

In any normal civilize society, it is the duty of those who are strong and able to support their less fortunate, sick and old.

I hope you will ignore, and treated Kwong with the utmost contempt. This man clearly has no moral principals; a grotesque capitalist thug! He typifies the uncaring and selfish attitude of today's Hong Kong middle class professionals. It makes me so angry.

Regards,
