Subject Agreed health insurance

Urgent Return receipt Sign Encrypt

Madam / Sir,

Due to rapidly ageing population, I agreed health insurance.

Short term plan is social health insurance for Company (employer contribution) 10% of assessable income which can be tax allowable expenses. It is because the elder age group had contribute their effort to HK industrial when they were young.

Long term plan is build up mandatory private health insurance for 5%-8% of employee and same % of employer for our own healthcare protection.

Thks
