Subject My opinion on health reform

Urgent Return receipt Sign Encrypt

Dear Secretary for FHB,

I would like to support option (4) as my first priority and option (6) as my second priority for the proposal on Hong Kong health reform.

I strongly support to expand private hospital services in Hong Kong - increase number of private beds and advocate public-private collaboration.

I also support government to increase the annual budget allocation on health services, and this is greatly under-allocated at present.

Thanks for your attention.

Regards,

Dr. Leung Ting Fan
Dept of Paediatrics, CUHK
