Subject Health care reform

Urgent Return receipt Sign Encrypt

There are a number of problems with the proposal:

1. The consultation paper provided six options for the collection of money to be spent in health care, but it is not clear how the money will be spent.
2. The addition of insurance company to manage the money collected means that part of the money will be used for management fee, which further reduce the amount of funds available for health care.
3. The basis of projection of health care spending in the future is unclear.
