Dear Sir,

I cannot support this policy. Since the document does not state an accurate formula to calculate the expense on health care. And there are no statistics about the current citizen's medical insurance. How do you know that all people will use the public hospital in the future?

Also, all employee deducted 5% of the salary to MPF. And most of the profit of MPF will go to the investment bank. Hong Kong people cannot benefit from the profit or gain in MPF.

It is unacceptable to pay money to insurance companies and banks.

So, i reject this document!!!

Best regards,  
Louis
