Subject Feedback to Consultation Paper on Health Care Program

Urgent Return receipt Sign Encrypt

Dear Sirs,

I am writing to give my opinion to the captioned consultation paper.

After reviewing the different options and program design detailed in the paper, I confirm my objection to the change among those listed options and believe that it would be the best option for Hong Kong citizens should the existing system continue to apply. Please take it a legitimate vote from a HK home grown citizen.

Thank you for your attention.

Yours faithfully,
Janet Chan
