Subject CHEAP - Health Care Reform

Urgent Return receipt Sign Encrypt

This reform scheme only rapes HK citizen earning. There are several points that I am not satisfied with

1. I am not working in the "industries protected by the HKG" & hence earn so little!
2. I keep exercising on a regular base (jogging > 10km each time). Can you have such a physical strength? So I can absolutely take care of my health even without HKG's "care".
3. HKG only know how to RAPE HK citizen earning to FEED the insurance company & to help the development of financial industry. CHEAP HKG, I WON'T PAY YOU!
