Subject Objection to the Medical Consultation

Urgent Return receipt Sign Encrypt

Dear Mr. Chow,

I am a pensioner of the Government. My wife and I are entitled to free medical treatment under the existing arrangements. This is considered as part of my pension benefits. This is a contractual liability of the Government.

I don't think it reasonable for the Government to deviate from the existing arrangements without our agreement. Should the Government deviate from the existing arrangements, it must find a solution acceptable to us.

Should we be required to contribute, Government should be responsible for the contribution.

Unless it is confirmed that Government is going to pay the contribution for us, I would object to the Medical Consultation.

Ian Lam
