Subject Medical Fund Consultation Paper

Urgent Return receipt Sign Encrypt

Dear Sir,

I refer to your Medical Fund Consultation Paper (the Paper)

I would like to remind you that it is unfair to require reitired government servants (who are receiving monthly pension from government as a result of their past services) to make any contribution to the Fund since they are contractually obliged to enjoy medical coverage from government. They should not be mixed with those who are receiving salaries for which they have worked for. Retired government servants are entitled to receive their pensions which they have worked for years in the past and the pensions are only deferred payments.

Best regards.

C. P, IU
