Subject Response to Healthcare Reform Consultation Document

Urgent     Return receipt     Sign     Encrypt

Dear Sir/Madam,

I have reviewed the said consultation papers of the captioned issue. My opinion to this medical reform is as below :

1) I don't agree to any scheme of the six suggested supplementary financing. My standpoint is, it is the government's sole responsibility to provide healthcare services to citizens, the tax payers. The government is financed by taxes of all kinds -- income tax, property tax, profits tax, ... and all indirect taxes. The government, while foreseeing the increasing burden of medical expenditure in future, should balance the income/expenditure in a more efficient manner. The government should start to cut down extravagant spending.

2) If I were to make a choice, I think Scheme 3.3 'Personal Healthcare Reserve' may be less disadvantageous.

Thanks for your kind consideration.

Danny Ho.
