Subject Health Care Reform Consultation

Urgent Return receipt Sign Encrypt

Dear Sir/Madam,

I write to express my objection to the various funding proposals set out in your proposal.- I believe the root of the problem is not one of funding, but one of providing medical & health services at artifically low or free level, which drives up demand for public services.- We need to address the root of the problem first.- Without this, either the govenment or the general public will have to bear the black hole of ever rising costs of providing medical & health services.

Yours faithfully,

P.S. I like to remain anonymous about views.
