Dear Sir / Madam

I am a physician working in an HA hospital. I prefer the option of combining "Users Pay" (savings) and voluntary insurance scheme. I regard it as a flexible, responsible and reasonable solution to the healthcare reform. Furthermore, I suggest to make available the use of savings after retirement age, when the premium for insurance is the highest.

I object to plan number 6 which puts heavy strain on the middle class, and which fails to make full use of the financial input due to the high administrative cost.

Thank you for giving us the opportunity to voice out our opinion in this very important public matter.

Yours faithfully,  
Leo Lui
