Subject Opinion on Medical Care Reform

Urgent Return receipt Sign Encrypt

To Whom It Concerns,

Dear Sir/Madam,

With overseas experience and as a citizen of Hongkong, I found the fundamental problem of our Healthcare system weren't only on the financial issue but also on the current law & regulation towards the Chinese & Western Medical-practitioners. We have quite a very weak gov't regulation or by-laws to govern the practices(included consultation fees) & medicines offered by both practitioners. I am one of the victims (is still a victim), but none of gov't related regulation or departments could help.

If these fundamental problems are not going to be solved, it will deepen the discontents amongst the public and create more problems on the new system. It will waste even more public resources(including financial) in long term.

I am willing to participate your consultative meeting opened for the public, if any, at present or in the coming future, to contribute my knowledge & experiences for the public and the gov't.

Yours truly,
Mr. Ho
