Subject: Medical reform

**Tao Keung Cheng**

28/10/2008 10:43 AM

Dear Sir,

Regarding the medical reform proposed by Chow Yat Ngok, please be advised that I do not agree.

I still think that the government should take up the responsibility of the medical needs of people. Rich people can go to see private doctors but poor people cannot. I do not agree with the Mandatory Medical Fund. I think tax is the only solution for getting the money for medical needs of people. Rich people pay more tax, poor people pay less tax.

So, government should impose high tax on people instead of low tax rate for company and income.

GOvernment should take up the responsibility of Medical needs of people, I repeat.

Thanks.

Cheng Tao Keung,
