Subject Healthcare Reform Consultation Doc

Urgent Return receipt Sign Encrypt

Dear Sir/Madam,

I am very surprised to receive your advertisement regarding the “Healthcare Reform Consultation Document” by *Hongkong Post Circular Service* , that means every postal address has received the same by post. The concerned advertisement is frequently advertised on TV recently which is always the most effective way to draw the attention of most citizens, thus it's really a big waste to send every address this advertisement by post in parallel, it destroyed thousands of trees for printing (against the environmental protection policy) and wasted the government's money and human resources to arrange this. I hope the government department always be very careful when using the resource, which is OUR wealth, belongs to every HK citizens.

Best regards,
Miss Choi
